# About Wildoaks

## Who We Are

WILDOAKS OIL AND GAS LIMITED is an indigenous Nigerian Company rendering services to the Oil and Gas Industry. The company was registered and incorporated on the 6th February, 2024 under the Companies and Allied Act Laws of the Federal Republic of Nigeria to render services to the Oil and Gas Sector of the economy, with the RC No 7334204.

WILDOAKS OIL AND GAS LIMITED engages in Petroleum Prospecting and Exploration, Oil and Gas Exploration and Production, Refinery Acquisition, Operation, Marketing of Petroleum Products of all Grades, Software Development, Installation, Maintenance, Hardware Development, ICT, Engineering Services, Inspection Services, Directional Drilling Services, Mud Logging & Services, Well Logging, Well Services, Environmental/Waste Management, Rehabilitation/Upgrade Works, Manpower/Labour Supply, Procurement Services, General Contractors and General Merchants. A company founded by seasoned and well trained professional engineers, geologists, drillers, scientists, and experienced administrators and marketers.

Our areas of operation cover oil and gas, energy, telecommunication and agricultural industries. We have adequately trained manpower specialists to the carryout project and contracts as were listed above. These well-trained hands ensure a round the clock inspection and supervision of our offshores, onshore and swamp terrain projects and/or proposed projects.

WILDOAKS will liaise with her affiliates across the globe to ensure any contract awarded to us will be carried out successfully and professionally.

## Our Vision

**To be recognized among the best organisations that provide Oil and Gas, and energy services in Nigeria.**

Cutting-  
Edge  
Technology

We create value-added solutions for our customers by understanding and conforming to every customer's specific needs and providing on-time deliveries.

## Our Mission

- Quality service delivery.
- Operating a system that conforms to international standards.
- Paying attention to customer satisfaction.
- Developing and maintaining the best people in the business
- Doing it right the first time

## Our Core Values

**Brilliance:** We believe in making our employees and our outputs the best while encouraging brilliant performances in the organization.

**Efficiency:** We believe in proportional utilization of resources to create values by using the lowest possible input to produce the highest possible output.

**Excellence:** We shall aim to set standards, devoid of errors and unprofessionalism. We aim to do it best the first time.

**Professionalism:** We train our employees to perform their duties well and to be able to develop and display appropriate level of skill, good judgment and polite behavior while performing their jobs.

**Team Work:** The various functional units and various individuals in our organization shall always work collaboratively in order to achieve our goals. We shall seek to collaborate with our clients and other interested parties to achieve our goals.

# Our Services

WILDOAKS provides a complete range of services in the Nigerian oil & gas industry. Our services includes but not limited to:

**Engineering  
Services**

**Directional  
Drilling**

**Logging/Measurement  
While Drilling**

**Well  
Logging**

**Manpower/Labour  
Supply**

**Technical Consultancy  
Services**

**Oil And Gas  
Prospecting**

## Engineering Services

Wildoaks offers a team of skilled engineers, project managers, and technical experts who are passionate about creating cutting-edge solutions for the oil and gas sector. We are committed to the highest standards of safety, sustainability, and operational excellence. Our comprehensive engineering services cover the entire lifecycle of oil and gas projects, from initial concept and design through to construction, commissioning, and maintenance.

we provide a wide range of engineering services tailored to the unique demands of the oil and gas industry. Our services encompass:

**Project Design & Engineering:** From concept to completion, we provide detailed engineering design services, including feasibility studies, system design, and technical specifications for upstream, midstream, and downstream projects.

**Front-End Engineering Design (FEED):** Our team is skilled in developing comprehensive FEED packages that provide our clients with the technical framework for efficient project execution and cost management.

**Engineering Procurement & Construction (EPC):** We offer end-to-end solutions for the construction and commissioning of facilities, pipelines, refineries, and offshore platforms, ensuring seamless integration of engineering design and project execution.

**Risk Assessment & Safety Engineering:** Safety is at the core of every project we undertake. Our engineers work diligently to assess potential risks and implement effective mitigation measures throughout the lifecycle of each project.

**Maintenance & Optimization Services:** We provide ongoing maintenance, asset management, and optimization services to enhance the performance and longevity of oil and gas assets, ensuring they operate at peak efficiency.

We are dedicated to delivering projects on time, within budget, and to the highest standards of quality.

## → Directional Drilling

We have experts with decades of expertise in the oil and gas industry, and our team leverages cutting-edge technology and industry best practices to deliver precise, efficient, and safe drilling solutions. Over the years, our experts have successfully executed complex drilling projects, offering tailored services that maximize resource recovery while minimizing environmental impact. Our commitment to innovation, quality, and customer satisfaction has earned us a trusted reputation among industry leaders, making us a go-to partner for directional drilling needs.

Our team of experienced engineers, drillers, and technicians combines expertise and advanced technology to execute complex directional drilling projects in a wide range of geological environments.

**Horizontal & Vertical Drilling**  
**Drilling Optimization & Wellbore Placement:**  
**Complex Well Trajectories**  
**Wellbore Surveying & Monitoring**

**Our  
Solution**

Our engineers and drilling specialists bring years of experience and technical knowledge to every project, and we invest continuously in research and development to ensure we remain at the cutting edge of the directional drilling industry.

## Logging/ Measurement While Drilling

Our advanced LWD technology enables real-time data acquisition during drilling operations, providing critical insights into subsurface formations, enhancing decision-making. Our team of experts ensures precise and reliable logging results, helping clients optimize drilling performance, reduce risks, and maximize reservoir evaluation. Trusted by industry leaders, we offer cutting-edge solutions tailored to meet the unique needs of each project, making us a preferred partner in the field of LWD.

Our MWD technology offers real-time, accurate measurements of down hole conditions, providing critical data such as wellbore trajectory, pressure, temperature, and formation characteristics. This enables operators to make informed decisions during drilling, optimizing well placement and enhancing safety.

Our skilled team, combined with state-of-the-art equipment, ensures seamless integration of MWD solutions to improve operational efficiency and reduce risks. We are dedicated to delivering high-quality, reliable services that support the success of our clients' drilling projects.

## Well Logging

We offer advanced well logging services that provide crucial data for the exploration, development, and production of oil and gas reserves. Our well logging solutions are designed to give you accurate, real-time information about the geological formations, fluid properties, and wellbore conditions, enabling you to make informed decisions at every stage of the well lifecycle. With cutting-edge technology, highly trained engineers, and a commitment to precision, we are your trusted partner for all well logging needs.

Our Well Logging Services

- Open hole logging**
- Cased Hole Logging**
- Wireline Logging**
- Mud Logging**
- Advanced Logging Techniques**

## → **Manpower/ Labour Supply**

We specialize in providing highly skilled and experienced manpower to support your oil and gas operations. Our workforce consists of qualified professionals who are trained to meet the unique demands of the oil industry, ensuring that your projects are executed efficiently, safely, and on schedule. Whether you need temporary staff for a specific project or long-term personnel for ongoing operations, we are committed to supplying the right talent to keep your operations running smoothly.

- » **Drillers**
- Assistant Drillers**
- Derrickmen**
- Roughnecks/Roustabouts**
- Mud Engineers**
- Rig Managers & Supervisors**
- Wellsite Supervisors**
- Completion Engineers**
- Coiled Tubing Operators**
- Wireline Operators**
- Offshore Drillers and Supervisors**
- Offshore Safety Officers**
- Offshore Support Crew**
- Project Managers & Engineers**
- Maintenance Technicians**
- Logistics Coordinators**
- Administrative Support**

## → **Hoisting & Operation Of Drilling Rigs**

Wildoaks offers hoisting and operation of drilling rigs, ensuring that your drilling operations are conducted safely, efficiently, and with the highest level of performance. Our team of skilled rig operators, engineers, and technicians is equipped with the expertise and experience necessary to manage the complex processes involved in drilling rig operations. From setting up and hoisting equipment to ensuring smooth and safe operation, we are your trusted partner for all drilling rig-related services.

- Rig Supply**
- Rig Up and Rig Down**
- Hoisting Operations**
- Equipment Positioning**
- Pre-Operation Inspections**
- Drilling Rig Supervision**
- Rig Maintenance and Troubleshooting**
- Mud Circulation**
- Drilling Fluids Management**
- Monitoring Drilling Parameters**
- Hoisting System Setup**
- Load Testing & Safety Checks**
- Load Distribution & Rigging**
- Drilling Performance Monitoring**

## → **Technical Consultancy Services**

Wildoaks offers expert drilling technical consultancy services to optimize the planning, execution, and management of drilling operations. With years of industry experience and a team of seasoned professionals, we provide actionable insights, innovative solutions, and strategic advice to ensure the success of your drilling projects. Whether you're exploring new reserves, developing mature fields, or conducting well interventions, our technical consultancy services are designed to enhance operational efficiency, reduce risks, and maximize cost-effectiveness.

**Well Planning & Design**  
**Drilling Optimization & Performance Enhancement**  
**Well Integrity & Safety Consulting**  
**Geomechanical Consulting**  
**Drilling Technology Integration**  
**Post-Drilling Analysis & Reporting**

Our team consists of highly qualified engineers, geologists, and drilling experts with years of experience in the oil and gas industry, providing you with the best possible solutions and advice. We understand that every drilling project is unique. Our consultancy services are customized to fit the specific needs of your project, ensuring that you receive the most relevant and effective recommendations.

## → **Oil And Gas Prospecting**

Wildoaks offers comprehensive oil and gas prospecting services to help you identify, evaluate, and secure valuable hydrocarbon reserves. With years of experience in exploration and a team of skilled geologists, engineers, and analysts, we offer cutting-edge solutions for discovering and assessing new prospects. Our services leverage advanced technologies, geological expertise, and detailed analysis to ensure the successful identification of potential oil and gas reserves.

**Geological & Geophysical Surveying**  
**Geochemical Prospecting**  
**Remote Sensing & Satellite Imagery**  
**Reservoir and Resource Assessment**  
**Exploration Licensing and Permitting**  
**Exploration Data Management & Reporting**

We offer a full spectrum of prospecting services, from initial site evaluation to detailed analysis and feasibility studies. Our team works closely with clients to ensure accurate and actionable results that maximize the potential of your exploration efforts.

# Our Policies

## → Social Responsibility

The ethical standards at Wildoaks are reflected in its philosophy of social responsibility and best practices to promote the development of communities where it has ties.

As part of its responsible management stance, the company strengthens its ties with clients, business partners and other interest groups through trusted relationships representing long-term business sustainability.

Wildoaks' philosophy of social responsibility is evident in the delivery of quality products, the continued business relations of mutual benefit, the improvement of its personnel's talent capabilities.

Our premise is to engage in business in an ethical, transparent and trusting manner. Wildoaks also promotes a safe and healthy environment both in the office and the various geographic locations where we operate.

## → HSE Policy

It is the policy of WILDOAKS to engage in Engineering Construction Operations and contracts in such a way and condition which free of accidents / injuries, and where it is not practicable to remove all hazards that employees may be exposed to.

Proper attention is paid to Health, Safety and Environmental conditions at the place of work and as far as practicable ensure its freedom from risks, diseases, sabotage and theft.

WILDOAKS' foremost interest in all projects is its SAFETY and ENVIRONMENTAL PROTECTION; and we will demonstrate HSE in all our operations.

Communicating our safety culture by promoting a safe and healthy work environment. Complying with National regulation, International best practices an applicable standards. Monitoring personnel's health to ensure employees are medically fit for the job they are assigned to.

Our HSE policy and objectives are achieved through our management's commitment to HSE programs in place, accident prevention and Health and Safety Insurance for every employee above and other consideration of any job operation or administration. Our procedures give strict responsibilities for every employee's health, safety and environmental protection.

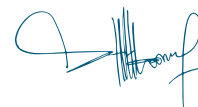

## → Nigerian Content Policy

As an indigenous company in Nigerian, WILDOAKS is committed to growing the Nigerian Content of our services and products.

To further improve our service delivery, we shall engage the services of OGTAN - registered training contractor to train our technical staff in the latest best practices in the industry. An integral part of the MOU/MOA, we shall sign in training of our local staff to progressively take over from foreign staff, when the need arises. For every expatriate staff engaged in project execution/deployed to client companies, WILDOAKS actively recruits, trains at least minimum of one Nigerian qualified staff to understudy, with a view to taking over the functions of the expatriate.

- WILDOAKS sources her materials from local vendors and from our list of suppliers, sub-contractors, partners, preference is usually given to Nigerian companies.
- WILDOAKS is registered with Nigerian Content Development and Monitoring Board (NCDMB) - Nigerian Oil & Gas Industry Content Joint Qualification System (NOGIC JQS) Registration Certificate.
- Co-operating with clients, government, partners and other indigenous organizations to promote local content
- Show commitment in meeting with the Nigerian Content targets of the Federal Government of Nigeria of achieving a minimum of 70% Nigerian Content, in terms of total monetary expenditures through the deliberate utilization of Nigerian human and material resources without sacrificing safety, health and environmental standards.

**The enforcement and implementation of this policy shall be the responsibility of the Managing Director. The Management, all and sundry shall work assiduously to abide by the above- mentioned policy and improve in our key performance indicators.**
